(i) Minimum marks to score for CIE is 50% of the maximum marks of CIE, and minimum passing marks for SEE is 40% of the maximum marks of SEE. In aggregate the students have to secure 50% total marks of the course (CIE+SEE marks).																	
(ii) A student obtaining Grade F in a Course shall be considered a failure and is required to reappear in subsequent SEE. Whatever the letter grade secured by the student during his /her reappearance shall be retained. However, the date of exam of the Course shall be indicated in the grade cards/ transcripts.																	

	24OMT6.2 Grade Point Averages	SGPA and CGPA: The credit index can be used further for calculating the Semester Grade Point Average (SGPA) and the Cumulative Grade Point Average (CGPA), both being important academic performance indices of the student. While SGPA is equal to the credit index for a semester divided by the total number of credits registered by the student in that semester, CGPA gives the sum total of credit indices of all the previous semesters divided by the total number of credits registered in all these semesters. Both equations together facilitate the declaration of the academic performance of a student, at the end of a semester and at the end of successive semesters respectively. Thus, $SGPA = \frac{\sum [Course Credits \times Grade Points] \text{ for all the Courses in that Semester}}{\sum [Course Credits] \text{ for all the Courses in that Semester}}$ $CGPA = \frac{\sum [Course Credits \times Grade Points] \text{ for all Courses excluding those with F and transitional grades until that Semester}}{\sum [Course Credits] \text{ for all Courses excluding those with F grades until that semester}}$
24OMT6.0	24OMT6.3 Grade Card	Based on the secured letter grades, grade points, SGPA, and CGPA, a grade card for each semester and a consolidated grade card indicating the performance in all semesters shall be issued.
24OMT 7.0 Conversions of Grades into Percentage and Class Equivalence Conversions of CGPA into Percentage of marks and Class Equivalence There is no formula for the conversion of CGPA into the percentage of marks. However, the following formula for conversion of the CGPA on a 10-point scale into the percentage of marks (M) for employment / higher studies, etc., may be used; Percentage of marks secured, $M = CGPA \text{ Earned} \times 10$ Illustration for a CGPA of 8.20; Percentage of marks secured $M = 8.20 \times 10$ $= 82.0 \%$		
24OMT 7.0	24OMT7.1 Class Equivalence	After the conversion of final CGPA into the percentage of marks (P), a graduating student is reckoned to have passed in 1. First Class with Distinction (FCD) if $P \geq 70\%$ 2. First Class (FC) if $P \geq 60\%$ but $< 70\%$ and 3. Second Class (SC) if $P < 60\%$. But $\geq 50\%$

CIE methods /question paper is designed to attain the different levels of Bloom's taxonomy as per the outcome defined for the course.

	24OMT8.3	An additional test may be conducted for the needy students to provide an opportunity to improve their CIE Marks before the end of the semester. 	24OMT8.12	If the difference between the marks awarded by the two Examiners is more than 15 percent of the maximum marks, the answer booklet shall be evaluated by a third Examiner appointed by the University. The average of the marks of the nearest two valuations shall be considered as the marks secured by the candidate. In case, if one of the three marks falls exactly midway between the other two, then the highest two marks shall be taken for averaging.
